

Voluntary Product Accessibility Template (VPAT)

Nevron Software LLC

Date: 12/19/22

Products: MyDraw, 5.3.1

Contact: email@mydraw.com

Summary Table Voluntary Product Accessibility Template		
<i>Criteria</i>	Supporting Features	Remarks and explanations
Section 1194.21 Software Applications and Operating Systems	Supported	See section 1194.21 detail table below
Section 1194.22 Web-based internet information and applications	Not Applicable	
Section 1194.23 Telecommunications Products	Not Applicable	
Section 1194.24 Video and Multimedia Products	Not Applicable	
Section 1194.25 Self-Contained, Closed Products	Not Applicable	
Section 1194.26 Desktop and Portable Computers	Not Applicable	
Section 1194.31 Functional Performance Criteria	Supported	See section 1194.31 detail table below
Section 1194.41 Information, Documentation, and Support	Supported	See section 1194.41 detail table below

Section 1194.21 Software Applications and Operating Systems—Detail		
Criteria	Supporting Features	Remarks and explanations

<p>(a) When software is designed to run on a system that has a keyboard, product functions shall be executable from a keyboard where the function itself or the result of performing a function can be discerned textually.</p>	<p>Supported</p>	<p>All features of MyDraw are accessible via keyboard input.</p>
<p>(b) Applications shall not disrupt or disable activated features of other products that are identified as accessibility features, where those features are developed and documented according to industry standards. Applications also shall not disrupt or disable activated features of any operating system that are identified as accessibility features where the application programming interface for those accessibility features has been documented by the manufacturer of the operating system and is available to the product developer.</p>	<p>Supported</p>	<p>No features of any other products or operating systems are disrupted or disabled by MyDraw.</p>
<p>(c) A well-defined on-screen indication of the current focus shall be provided that moves among interactive interface elements as the input focus changes. The focus shall be programmatically exposed so that Assistive Technology can track focus and focus changes.</p>	<p>Supported</p>	<p>MyDraw support the industry standard keys for navigation through input focus elements (tab key and shift/tab key).</p>
<p>(d) Sufficient information about a user interface element including the identity, operation and state of the element shall be available to Assistive Technology. When an</p>	<p>Not-Supported</p>	<p>All information available through icons and graphical user interface elements in MyDraw is also available as text through a tooltip. Assistive Technology</p>

<p>image represents a program element, the information conveyed by the image must also be available in text.</p>		<p>such as a Screen Reader may make this information available through speech synthesization or via a Braille output device. In addition, all functionality provided by graphical user interface elements is also available via documented commands, which may be typed or otherwise input by a user.</p>
<p>(e) When bitmap images are used to identify controls, status indicators, or other programmatic elements, the meaning assigned to those images shall be consistent throughout an application's performance.</p>	<p>Supported</p>	<p>Bitmap images, such as icons and tool buttons, are used in a completely consistent manner throughout MyDraw.</p>
<p>(f) Textual information shall be provided through operating system functions for displaying text. The minimum information that shall be made available is text content, text input caret location, and text attributes.</p>	<p>Not-Supported</p>	<p>MyDraw custom UI does not integrate with Assistive Technology.</p>
<p>(g) Applications shall not override user selected contrast and color selections and other individual display attributes.</p>	<p>Not-Supported</p>	<p>MyDraw uses custom UI settings. It is possible to select contrast / theme from MyDraw custom settings.</p>
<p>(h) When animation is displayed, the information shall be displayable in at least one non-animated presentation mode at the option of the user.</p>	<p>Not applicable</p>	<p>MyDraw does not show animations.</p>

<p>(i) Color coding shall not be used as the only means of conveying information, indicating an action, prompting a response, or distinguishing a visual element.</p>	<p>Supported</p>	<p>All UI elements have plain ASCII text representation. Menu, command bars, and ribbon items are also identified with textual tooltips to convey their meaning.</p>
<p>(j) When a product permits a user to adjust color and contrast settings, a variety of color selections capable of producing a range of contrast levels shall be provided.</p>	<p>Supported</p>	<p>Where MyDraw allow the user to adjust color settings, the full spectrum of colors and contrast settings available through the operating system may be selected.</p>
<p>(k) Software shall not use flashing or blinking text, objects, or other elements having a flash or blink frequency greater than 2 Hz and lower than 55 Hz.</p>	<p>Supported</p>	<p>MyDraw does not use flashing or blinking text.</p>
<p>(l) When electronic forms are used, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.</p>	<p>Not Applicable</p>	<p>MyDraw does not use electronic forms.</p>

Section 1194.31 Functional Performance Criteria—Detail

<p align="center">Criteria</p>	<p align="center">Supporting Features</p>	<p align="center">Remarks and explanations</p>
<p>(a) At least one mode of operation and information retrieval that does not require user</p>	<p>Not-Supported</p>	

<p>vision shall be provided, or support for Assistive Technology used by people who are blind or visually impaired shall be provided.</p>		
<p>(b) At least one mode of operation and information retrieval that does not require visual acuity greater than 20/70 shall be provided in audio and enlarged print output working together or independently, or support for Assistive Technology used by people who are visually impaired shall be provided.</p>	<p>Not-Supported</p>	
<p>(c) At least one mode of operation and information retrieval that does not require user hearing shall be provided, or support for Assistive Technology used by people who are deaf or hard of hearing shall be provided</p>	<p>Not Applicable</p>	<p>MyDraw produce no sounds, and hearing is not necessary to use MyDraw.</p>
<p>(d) Where audio information is important for the use of a product, at least one mode of operation and information retrieval shall be provided in an enhanced auditory fashion, or support for assistive hearing devices shall be provided.</p>	<p>Not Applicable</p>	<p>MyDraw produce no sounds, and hearing is not necessary to use MyDraw.</p>
<p>(e) At least one mode of operation and information retrieval that does not require user speech shall be provided, or support for Assistive Technology used by people with disabilities shall be provided.</p>	<p>Supported</p>	<p>No features of MyDraw require user speech.</p>
<p>(f) At least one mode of operation and information retrieval that does not require fine motor control or simultaneous actions and that is operable with limited reach and strength shall be provided.</p>	<p>Supported</p>	<p>MyDraw functionality is completely accessible with keyboard or low precision mouse pointer.</p>

Section 1194.41 Information, Documentation, and Support—Detail

Criteria	Supporting Features	Remarks and explanations
(a) Product support documentation provided to end-users shall be made available in alternate formats upon request, at no additional charge.	Supported	All product documentation is provided in HTML and PDF format and may be read by Assistive Technology. In addition, all product help files may be optionally output in ASCII text and then accessed by Assistive Technology.
(b) End-users shall have access to a description of the accessibility and compatibility features of products in alternate formats or alternate methods upon request, at no additional charge.	Supported	All product features are described in either HTML or PDF files and may be read by Assistive Technology.
(c) Support services for products shall accommodate the communication needs of end-users with disabilities.	Supported	Technical support is available via plain ASCII email. Emails may be sent to MyDraw Technical Help using Assistive Technology, and emails from MyDraw Technical Services may be read using Assistive Technology.
